

# Working Remotely in Finance

Set-up | Support | Enhancement

Struggling with the unique challenges of running a finance department remotely?

FHB's Remote Work Support Services ensure your organization has the best possible set-up to enable staff to work efficiently and securely from home. Not only will we implement a remote work environment comparable to working in the office, we'll make some significant improvements. When you consider remote work, your first

thoughts are probably concerned with bandwidth, latency, security, and access. All important factors which must be considered and honed for the best results. Effective remote work requires more than just high speed connections however. Working at distance demands paperless processes that enable & support easy collaboration.

## Leave Nothing to Chance.

From tools to processes, we ensure your team's remote work success:

- **Hardware:** We find & implement the hardware that will work with your systems and make working from home maximally effective.
- **Connectivity & Performance:** Our experts will troubleshoot your problems, work with your IT and your ISP to provide better performance and rock-solid connectivity with your office.
- **Security & Backups:** Working outside the office exposes your team to many new threats. Our team will perform a remote-work security assessment to ensure your people are secure and protected.
- **Collaboration:** We review your needs and recommend & implement low-cost / no-cost software to make remote work more efficient than it was when you were in the office.
- **Staff Oversight:** Ensuring that your team is working effectively requires some different approaches and some different tools. Based on your needs, we recommend & implement the right tools & best practices.
- **Workflow:** The final step in remote-work efficiency is automating mundane, recurring tasks that waste time and bottleneck processes. Our experts identify the automation opportunities, recommend & implement the solutions which save the most time and ensure your operations are as efficient as possible.
